

Affordable Construction Reviews

AB, Oak Grove 5 Stars –

"We were looking for someone to build us a pier for our lake house but we were told we needed pilings and we couldn't find a contractor we could afford. A friend told us about Affordable Construction and we called and were pleasantly surprised that they had the equipment to drive the pilings - and their price was really affordable. Mike and his guys are great!"

MT, Hattiesburg 5 Stars –

"Affordable Construction was referred to me by my friend on FaceBook. Michael Long came by and toured our house and presented us with a very comprehensive proposal for our home addition. They were very polite and considerate when they were working and when completed, we were very satisfied with their work. I would be happy to recommend Mike and his team to anyone looking to remodel their home."

RG, Petal 5 Stars -

"We wanted to have a pergola built in our backyard. We found Affordable Construction on the Internet. Mike came out and listened to our ideas and designed and built a perfect solution. We would highly recommend Mike."
